

Complex and Multi-Party Case Management

NLJ Best of 2023
 Thanks for voting us #1, nationally!

COURT REPORTING

Complex Case Management Solutions

A no-stress case management experience is our top priority, and that starts with a dedicated team working every day for you.

A Case Manager is assigned for every case. The Case Manager serves as your single-point-of-contact and oversees the entire process, from setting up case requirements, scheduling, event coordination, and delivery. The Case Manager will know everything about your case.

Remote Depositions

On complex, multi-party matters, our clients prefer utilizing our expert hotseaters for exhibit presentation. Our trial technicians (hotseaters) utilize trial presentation software to manage and display exhibits in a dynamic manner. The deposition has a trial like feel, which blends well on complex matters. The attorney can focus on the deposition, witness and their next question, while our experts handle all technical aspects.

After using the service of your company for a large, multi-jurisdictional case, I must tell you how extremely pleased I am at the level of talent and technical expertise exhibited by your reporters and staff.

HOTSEATERS

Elevate Exhibit Presentation with an Expert Hotseater for Your Depositions

What can you expect from your Hotseater?

Pre-Event

- Help determine the best screen configuration for your needs
- Organize all exhibits
- Set up private/shared folders for pre-event prep and courtesy copies during event—your “digital bankers box.”
- Show all parties what to expect during proceedings throughout your case
- Dry run internally the night before to test the technology

During Proceedings

- Respond to verbal commands relating to exhibit display
- Manage the exhibit folders (marked/potential)
- Mark exhibits as presented and move to shared folder for courtesy copies
- Provide witness with control of the document as requested
- Save witness annotations to create a new exhibit

Other Benefits

- Neutral - working for both sides
- Control and manage breakout rooms
- Assist with any technical issues
- Record exhibits being presented—providing the client with picture-in-picture video for trial

HusebyConnect 2.0

A ROBUST PLATFORM FOR YOUR MOST COMPLEX CASES

HusebyConnect 2.0 is our newly re-designed industry-leading, proprietary remote deposition platform with live video stream, integrated electronic exhibit presentation, and a case management portal. Integrated realtime coming soon!

Live Video Stream

Feel like you are in the deposition room and experience face-to-face interaction with live HD video. Video can be displayed in speaker view, gallery view, or fullscreen mode - which highlights the deponent's video feed.

Electronic Exhibit Presentation

HusebyConnect's robust exhibit presentation module allows counsel to present exhibits electronically, make annotations and mark with an exhibit sticker into the record. Exhibit numbering can be manual or automated.

Break-Apart Modules

If you have multiple monitors, take advantage of the ability to break apart modules and spread your deposition experience across screens.

View the deponent in full-screen mode, while managing, previewing, and presenting exhibits from a separate screen.

Have video and non-PDF documents pulled up and ready to screen share in full-screen mode.

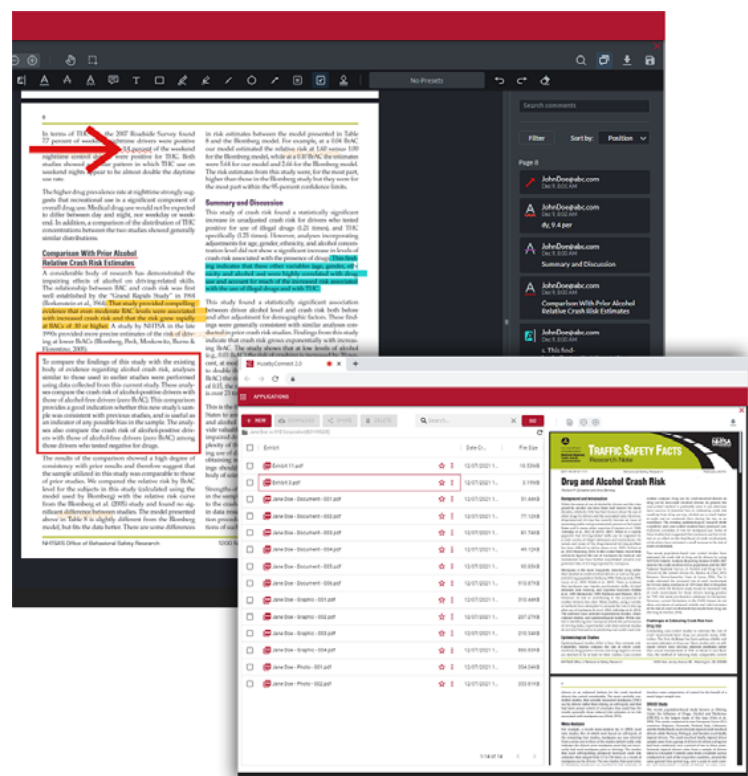

Exhibit Management

Managing exhibits during the deposition is easier than ever before. New exhibits can be uploaded before or during the deposition proceedings. Exhibits can be marked ahead of time or on-the-fly, are updated instantly and saved into a dedicated exhibit folder. They are available for immediate access throughout your case.

Counsel has access to a complete history of all exhibits in the portal. Exhibits can be searched, sorted, shared, and downloaded after the deposition is complete.

Marked exhibits are saved into a dedicated Final Exhibit folder, immediately available to search, sort, share, and download.

Extensive annotation features allow counsel and/or the deponent to highlight, redact, and add shapes/arrows as either a point of reference or to be made a permanent part of the exhibit. Annotations can be moved or edited prior to saving.

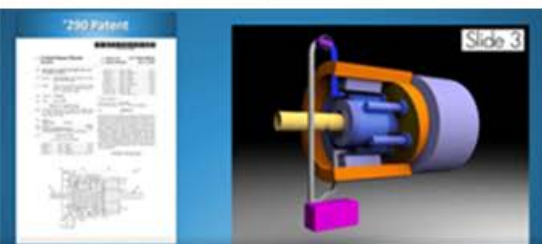

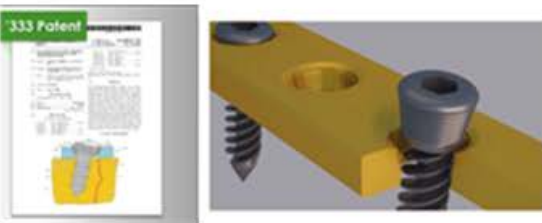

LEGAL GRAPHICS

Demonstrative Evidence

DEG's seasoned litigation graphic consultants and designers work directly with trial teams and recommend the most effective demonstratives to bolster the arguments of your case.

You and the DEG team were instrumental to this result. Thank you all for always being responsive, creative, diligent, and timely. I mean – I honestly can't imagine doing this case without you guys. It's been seamless – from depositions until now.

- Kellogg Hansen, State of Florida, et al. v. Purdue Pharma L.P., et al.

DEG's graphics services include:

Strategic Consulting

Highly experienced graphics consultants and designers who will learn your case, facts, and arguments and then work with you on preparing the most persuasive demonstratives.

Custom Illustration

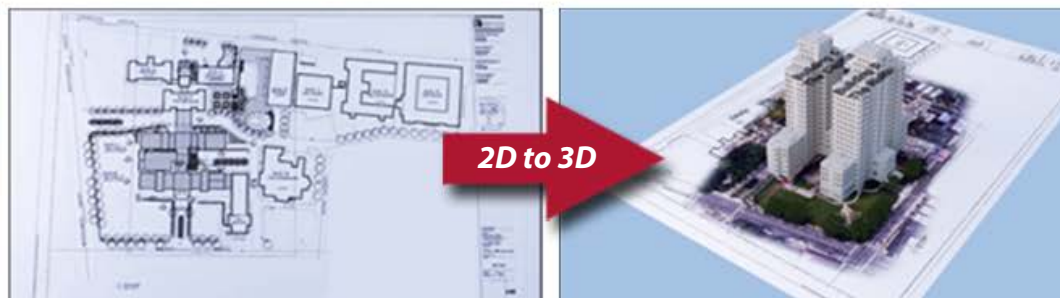

Professional designers create the exact illustrations you need.

2D Animation

Flexible animations which can be shown in PowerPoint or media files with the option of synchronized voice-over.

3D Stills & Animation

Full 3D modeling created by specialty designers with the ability to show & move objects, people & scenes from inside & out.

TRIAL PRESENTATION

Hot Seat

DEG's team of trial technology professionals have consulted on thousands of trials nationwide and internationally - **securing over \$4 billion in jury awards and favorable settlements** - and can assist you with all your technology needs before trial and in the courtroom. With an average of 18+ years experience for hotseaters and graphic designers - including former litigators - our role is to blend in with your team, and provide you with the support and preparation that enables you to win. Our team applies its accumulated institutional knowledge such as courtroom layouts, specific judges, effective presentation strategies, hardware and software recommendations – to help you win.

Equipment Management:

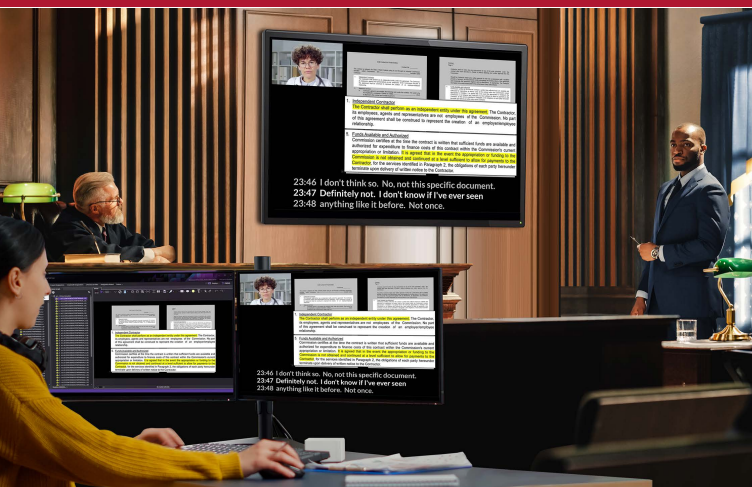

- Recommend war room / courtroom equipment requirements.
- Facilitate equipment rentals.
- Coordinate with courtroom officials to setup / tear down.
- Test hardware and software integrity throughout engagement.

Digital Evidence Group has become an essential part of our litigation practice – a cornerstone of our trial teams. From depositions to the court room, the professionals at DEG make the litigation “process” easier, employing cutting edge technologies and processes that allow us to be better attorneys.

- Morrison Foerster

Pre-Trial Preparation

- Encode and synchronize all media.
- Scan all exhibits and documentary evidence.
- Upload materials for team review.
- Review outlines and conduct dry runs with witnesses.

Courtroom & Trial Presentation Support

- Seamlessly display prepared presentations, depositions, documents & demonstratives.
- Ensure smooth recall of evidence on-the-fly.
- Collaborate with trial team to coordinate presentation of evidence.
- Manage evidence for trial.
