

INTUITIVE SUPPORT

FEATURE-RICH TECHNOLOGY

SECURE COLLABORATION

ADVANCED TECHNOLOGY

- Keyword search exhibits and track annotations by author and time-stamp. Annotation tracking is hyperlinked to the live exhibit.
- Present and handle large, complex exhibits, with advanced annotation capabilities, mark with electronic exhibit stickers, and gain immediate access to the final exhibits.
- Take advantage of multiple screens by breaking-out modules during your remote deposition to make the video and exhibit presentation each full-screen.

SECURE COLLABORATION

- Remotely prep witnesses and closely collaborate with your client and team using Huseby's platform, designed to enable seamless document review and deposition preparation.
- Upload, organize, and manage exhibits pre-deposition. Preview, bookmark, add descriptions, and share with your team through a secure link.
- Use realtime feed to mark and review testimony, and to collaborate with your team live during your deposition or trial.

SPECIALIZED COURT REPORTERS

- Exceptional reporters with a command of IP terminology accurately capture expert testimony for next-day expedites or any other turnaround requested.
- Take advantage of a realtime transcript feed. Avoid the disruption of readbacks, instantly flag testimony for on-the-fly questioning, collaborate with team members viewing live feed.
- Trustworthy, professional reporters handle matters of strict confidentiality, securely and with care.
