GLOBAL LITIGATION SUPPORT

Empowering Today's Attorney

Quality and a local service focus are our top priorities, and that starts with our team working every day for you.

Our mission is simple, “**Excellence in every interaction**”.

With over 90 years experience, Huseby continually delivers the highest quality service and cutting-edge technology.

Since 1928, the Huseby family has been proudly serving the legal community providing the highest quality court reporting, trial services, and litigation support in the industry. Today, with locations from coast to coast, Huseby is well situated to provide our clients services across the United States, as well as internationally.

We have never forgotten that the key to delivering outstanding client services comes down to the quality of our people. We do everything possible to recruit and retain the very best court reporters, client service personnel and account managers, ensuring that you will be working with the high-quality people you can trust to exceed your expectations.

From scheduling, to your deposition experience and delivery of your work product, Huseby is *simplifying* the way you do business.

Who We Are

Trusted Experience. Huseby has grown into one of the most successful litigation support service providers in the country. The Huseby family is deep rooted in the legal community with three generations of court reporting professionals dating back to 1928. Scott Huseby Sr., President and CEO, successfully combines his expertise and family legacy with the personalized local service feel Huseby brings to all of its clients.

Single Source Provider. Huseby provides the resources, international reach, cutting-edge products, state-of-the-art technological solutions and extensive support services for your most complex litigation. In addition, Huseby has the ability to be nimble which allows us to execute better than anyone.

Robust Security. Huseby has invested significant resources into its information technology and internal workflow, designed to offer clients unparalleled security and quality. While other national court reporting firms employ a very decentralized business model with Production and IT infrastructure scattered in many places, Huseby centralizes core operations to provide the ability for strong oversight and managed security controls.

Quality Management. Our Quality Assurance program is part of our corporate DNA. It informs each step of each process from the client relationship team to the back office. It is in place from beginning to end. We have a culture that believes in quality and we empower our people to be the best at what they do. Our product is of the highest quality because we have transparency into our process and train our people to serve our clients, and make good decisions.

Solutions for Any Case

Work with a team that understands the unique needs of your case, increases efficiency and drives results.

Custom Solutions

Case Management

Information Security

Our case managers are ready to roll up their sleeves and work with you to present ideas to efficiently drive results in your most complex cases.

Case Managers make sure your team has what they need, when they need it.

Solution Experts match technology to your needs and help you overcome challenges.

“After using the service of your company for a large, multi-jurisdictional case, I must tell you how extremely pleased I am at the level of talent and technical expertise exhibited by your reporters and staff.”

- Partner,
Alston & Bird

Web Resource Center

Counsel has a web-based Resource Center for all case calendaring, management and secure content delivery. Users access the Resource Center through an encrypted, strong-password protected site on Huseby.com and have 24/7 access from any device.

Scheduling Module

This module includes the following features:

- An information page.
- A scheduling page for new depositions to be scheduled.
- A calendar of upcoming depositions specific to each user.
- The ability to make changes to already scheduled depositions.
- Google maps to the deposition location from any device.
- Add your scheduling entry to your Outlook calendar

Repository Module

This module includes the following features:

- Search case files by date, case, type, description or attorney.
- Download single files or batch download multiple files at one time.
- Dynamically key word or phrase search across a specific case or the entire database of transcripts and exhibits. The search function allows users to search across specific file types.

Invoice Activity Module

This module includes the following features:

- Search invoice activity by date range, case, matter number, status or attorney.
- Create a PDF activity report for searched criteria.
- Download invoice(s) in PDF.

Leading Edge Technology - HusebyConnect

HusebyConnect is a proprietary application introduced in 2013 that provides clients a complete deposition experience in a virtual environment, allowing counsel to attend a deposition anywhere in the world from the comfort of their office. HusebyConnect has three main components; Live video stream from the deposition location, real-time text streaming, and electronic exhibit presentation.

Video

When a videographer is requested the live video feed comes directly from the videographer's camera. Huseby also has a supply of HD 1080p webcams with tripods to provide when a videographer is not requested.

Counsel can choose whether or not to show themselves on video, or just view the witness. Video can be streamed directly into a courtroom for remote trial testimony.

Leading Edge Technology - HusebyConnect

Exhibit Presentation

Exhibit presentation allows counsel to present exhibits across the world electronically, make annotations and mark into the record. Once saved the chain of custody saves a version in counsel's repository, a copy for the court reporter and a copy for Huseby's production department.

Counsel has instant access to a complete history of all exhibits previously marked in the case to reference anytime in future depositions.

Exhibit History

Live Exhibit Presentation

The screenshot displays the Huseby Exhibit Presentation software interface. On the left is an 'Editor' sidebar with various tools like 'Text', 'Pencil', 'Highlight', 'Shape', and 'Undo/Redo'. The main workspace shows a circuit diagram of a motor control system with a PIC microcontroller, regulators, and a three-phase inverter. A red circle highlights a 'FAULT_MC' component, and a blue box at the bottom right is labeled 'Defendant's Exhibit 8'. A 'HIGHLY CONFIDENTIAL' stamp is visible in the top left of the workspace. On the right, the 'Exhibit History' table lists 11 PDF files with their names, creation dates, and sizes. Below the table are options for 'New Exhibit From Local PDF', 'Create Blank Exhibit', and 'Preloaded Documents'.

Leading Edge Technology - HusebyConnect

Remote Real-time Text

The real-time text stream provides counsel a live transcript stream from anywhere in the world, with the ability to annotate on the transcript, including notes, issue coding and bookmarking. At the end of the deposition the transcript is automatically saved directly in counsel's repository for immediate review.

When saved in the repository all highlights, notes and issue codes are available with the ability to make further annotations.

Counsel also has the ability to export the transcript and annotations into Summation, LiveNote or TextMap.

Trial Support Solutions

Huseby provides full-service support throughout the lifecycle of your trial with consultants that bring years of courtroom experience to your team. From the war room to the courtroom, with our assistance, your team can focus on strategy rather than how to present and display exhibits and video in court.

Document Prep

Huseby provides a comprehensive suite of document management services to make sure you are trial ready. Huseby Trial Services offers document imaging of virtually any type of document, including film and x-rays. Digitized documents can then be made keyword searchable using optical character recognition and stored securely in a repository for access by the trial team 24/7 from any device. The case repository is key word and key phrase searchable.

Services Include...

- 30x40 Foam Board Blow-ups
- Document Scanning
- File Conversion
- Document OCR
- Document Printing
- Bates Numbering
- Trial Notebooks
- eBinders in PDF
- Witness Notebooks
- Oversize Scanning and Printing
- CD, DVD and Blu-ray reproduction

Demonstrative Graphics

In today's multimedia culture, an effective digital presentation is a huge advantage in trial. Digital trial presentation will greatly enhance the ability of the judge and jury to visualize your story. Huseby Trial Services can transform your ideas into graphics including animation, charts, timelines and PowerPoint presentations.

Services Include...

- Charts
- Graphs
- Interactive Timelines
- Illustrations
- 3-D and Flash Animation
- PowerPoint Presentations

Trial Support Solutions

Present Your Case with Clarity and Impact

A growing percentage of the national jury pool is made up of younger “Generation X” and “Generation Y” jurors who are accustomed to learning visually.

A trial consultant plays a pivotal role in providing an important link between the attorney’s concept and technology.

Defense Mechanisms: Lungs – Lymphatic System

Should pathogens reach the lungs, two more defense mechanisms are in place to remove them.

First the lymphatic system is designed to drain excess fluids from the lungs. Pathogens suspended in this fluid are thus drained away from the lungs and filtered through the lymph nodes.

“After contacting them and explaining our needs to use modern equipment at trial in an older courtroom, I was extremely pleased with their experience and delivery. Their knowledge of current digital technology and experience within the legal field enabled them to anticipate needs I didn’t realize would arise during trial.”
